# KL Series Functions

## KL10 Passage

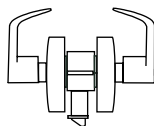

### Outside

Lever is always free.

### Inside

Lever is always free for immediate exit.

## KL40 Privacy

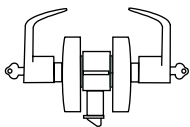

### Outside

Opened by lever when unlocked. Pushing button on inner knob locks the outer lever. Emergency key, screwdriver or similar tool will release lever in case of emergency. "Kick-off" is a standard feature.

### Inside

Lever is always free for immediate exit.

## KL66 Communicating

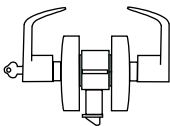

### Outside

Full turn with key locks or unlocks both levers.

### Inside

Full turn with key locks or unlocks both levers.

## KL80 Storeroom

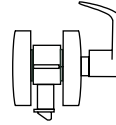

### Outside

Lever is always fixed. Key retracts latchbolt only.

### Inside

Lever is always free for immediate exit.

## KL25 Exit Lock

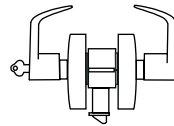

### Outside

Blank plate outside.

### Inside

Lever is always free for immediate exit.

## KL53 Entrance

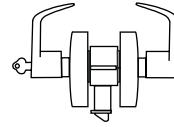

### Outside

Pushing button on inner lever locks outer lever. Turning key releases button leaving lever unlocked. Secondary feature: Rotating turn button to horizontal position locks outer lever. Key will now only retract latchbolt.

### Inside

Lever is always free for immediate exit.

## KL70 Classroom

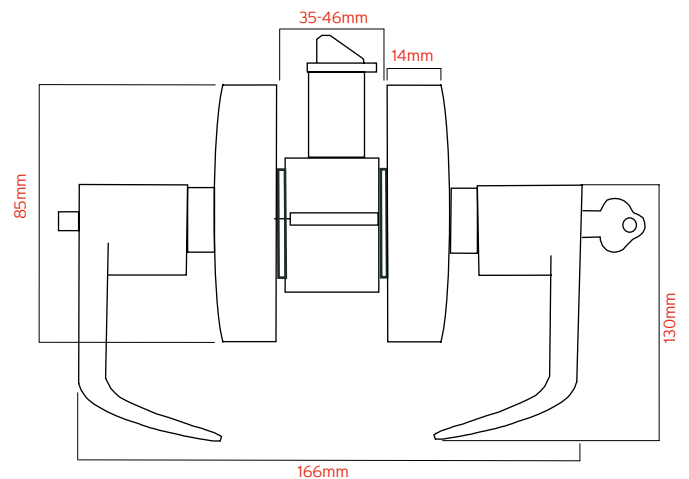

### Outside

Full turn with key in outer lever locks or unlocks outer lever only.

### Inside

Lever is always free for immediate exit.
